| Thinner to be added (%)                      | 0-20      | 0-20      |  |  |
| Processing viscosity DIN 4mm (sec.)          | 25        | 25        |  |  |
| Coverage per application (g/m <sup>2</sup> ) | 100-120   | 100-120   |  |  |
| Coverage (m²/l)                              | 8-10      | 8-10      |  |  |

## Drying time @ 20°C

| Dust dry            | at least 20 minutes |  |
|---------------------|---------------------|--|
| Touch dry           | at least 1 hour     |  |
| Ready for transport | at least 12 hours   |  |
| Sandable            | at least 2 hours    |  |

### **Special notes**

Do not process and dry PU lacquers below 15° C.

PU lacquers can be applied within one working day without any intermediate sanding. After that period of time, intermediate sanding must be made just before further processing, in order to ensure proper adhesion.

PU hardeners are affected by moisture. Always store the hardener in tightly closed original batches.

When using PU hardeners, always follow the safety instructions on the label.

PU hardeners can be stored in the closed original container at a cool and dry place for a maximum of one year.

The product is peroxide-resistant and can also be used on bleached wooden surfaces.

| Test standards |  |  |  |
|----------------|--|--|--|
|                | DIN 68861/1B Chemical exposure of furniture surfaces   |  |  |
| F              | EN 71-3 Migration of soluble heavy metals  |  |  |
| F              | DIN 53160 Part 1 and 2 Resistance to saliva and sweat  |  |  |
|                | General appraisal certificate with regard to low<br>flammability according to DIN 4102/B1 on hardly<br>inflammable B1-tested wooden particle boards,<br>even veneered. |  |  |
|                |  |  |  |

Products from AkzoNobel Wood Coatings are exclusively produced for professional and industrial users, who have a basic knowledge of the handling and application of chemical/technical products for surface design. The processing instructions for reaching the qualities given in the leaflets should be regarded as non-binding recommendations and do not constitute any warranty. These recommendations are based on our experiences, including test series, and should facilitate and promote the work of our clients. Any potential deviation from ideal working conditions is within the responsibility of our clients and may affect the (end) result of the application. The purchaser is not relieved from his duties to inspect the product and its suitability for the surface to be processed, preferably trough trial processing. If in any doubt as to the handling or processing of the purchaser product, our material experts as well as our application and laboratory technicians will help you to the best of their ability. AkzoNobel, of course, guarantees an impeccable quality of its products in its product specifications, yet the use thereof lies entirely within the responsibility of a portice darget and suitability of a product specifications, yet the use thereof lies entirely within the responsibility of application or handling, even if the advice or information is given to the best of our knowledge, will not be binding nor will it constitute a warranty. AkzoNobel's liability for the use of its products by its customers is limited in its General Sales and Delivery Conditions, to which the purchaser is hereby referred. The applicable version of the Technical Data Sheet for this product can be downloaded from our websites. Previous versions of the Technical Data Sheets are rendered void with the issue of a new one. Date of issue: 2019-10-10 / 3
