

Furniture Cleanser and Care MRP

Product description	
Description	New formula based on water with micro-crystalline waxes for painted, plastic and metal surfaces in all gloss levels. The product is free from silicones and hydrocarbons. Furniture Cleanser and Care MRP removes dust, dirt and fingerprints, closes micro-scratches and forms a protective film. By the use of most recent micro-crystalline waxes, it replaces the products Furniture Care MPF, Polishing Water S68 and the High Gloss Care Product HGP.

Range of application	
Description	For cleaning and caring all varnished furniture surfaces such as doors, cabinets, tables, etc. The product is suitable for all gloss levels from high gloss to dead matt. It cleans and seals the surface simultaneously, without leaving a veil. Also suitable for all types of plastics and metal in residential environments.

Product data	
Product code	MRP
Packaging size	500 ml spray bottle
Shelf life - Original batch unopened	at least 1 year

Processing	
 	The product is preferably sprayed directly onto the surface to be treated and then rubbed with a clean, lint-free cloth. With this cloth, under low pressure and in a circular motion, the product is distributed uniformly over the surface until the surface is completely dry. The product can be applied repeatedly until the surface is clean, smooth and sealed. Micro-crystalline waxes have their full effect only when spraying. For that reason, apply the product only with the spray nozzle. Do not work too wet.

Aftertreatment	
The application can be repeated at any time.	

Products from AkzoNobel Wood Coatings are exclusively produced for professional and industrial users, who have a basic knowledge of the handling and application of chemical/technical products for surface design. The processing instructions for reaching the qualities given in the leaflets should be regarded as non-binding recommendations and do not constitute any warranty. These recommendations are based on our experiences, including test series, and should facilitate and promote the work of our clients. Any potential deviation from ideal working conditions is within the responsibility of our clients and may affect the (end) result of the application. The purchaser is not relieved from his duties to inspect the product and its suitability for the surface to be processed, preferably through trial processing. If in any doubt as to the handling or processing of the purchased product, our material experts as well as our application and laboratory technicians will help you to the best of their ability. AkzoNobel, of course, guarantees an impeccable quality of its products in its product specifications, yet the use thereof lies entirely within the responsibility of the purchaser. As long as we have not guaranteed – in writing – the specific characteristics and suitability of a product for a contractually agreed purpose, any advice or information given regarding the application or handling, even if the advice or information is given to the best of our knowledge, will not be binding nor will it constitute a warranty. AkzoNobel's liability for the use of its products by its customers is limited in its General Sales and Delivery Conditions, to which the purchaser is hereby referred. The applicable version of the Technical Data Sheet for this product can be downloaded from our websites. Previous versions of the Technical Data Sheets are rendered void with the issue of a new one. Date of issue: 2024-06-28 / 8
